

Re: REACH Substances of Very High Concern (SVHC)

February 21, 2024

Article 33 of EU REACH Regulation (1907/2006) requires communication to customers the presence of SVHCs more than 0.1% by weight of articles (as defined by Court of Justice of the European Union Case C-106/14) contained in products.

We have reviewed Mesa 4 (model: MS4W) for the presence of the two hundred and thirty-five (235) SVHC substances on the EU SVHC Candidate List as of 14 June 2023.

No SVHCs were found to be present in Mesa 4 (model: MS4W) in excess of 0.1% except as noted below. This determination is based on engineering evaluation, and testing and is correct to the best our knowledge.

Notes:

1. High temperature solder components contain Lead (EC# 231-100-4) > 0.1% w/w
2. Brass components contain Lead (EC# 231-100-4) > 0.1% w/w
3. Components in Pihong power adapter (PCB, Black plastic tip on connector, white plastic sheet) and black plastic sheet for labels in battery compartment contains TBBPA (EC# 201-236-9) > 0.1% w/w
4. Display assembly contains UV-328 (EC# 247-384-8) > 0.1% w/w
5. Speaker connector contains Melamine (EC# 203-615-4) > 0.1% w/w
6. Plastic bag for Pihong power adapter contains TNPP (EC# 247-759-6) > 0.1% w/w
