

# Release Notes

## OS Build 22256

### For Mesa 3 Rugged Tablets Running the Windows 10 Operating System

These notes include important information for our Mesa 3 customers regarding the most recent release of the Mesa 3 Windows 10 operating system.

Documentation and software updates are located on our website here: <https://junipersys.com/support>.

#### Updates in the OS for New Devices

- Camera drivers reverted to an older version to avoid a rare green screen problem.
- Added Intel Sensor Hub drivers for Rev 10 (or later) motherboards.
- Changed Windows 10 Pro to Windows 10 IoT Enterprise LTSC 2021. All existing features of Windows 10 Pro will remain available, including the apps in the Microsoft store. This change includes:
  - Updated Windows Setup screen that focuses on a “School or Work” account.
  - Long Term Servicing Channel (LTSC) security updates for this version only.
  - Additional enterprise features and capabilities are now present, but are largely invisible to the end user.

#### Updates in the OS Patch

- Camera drivers reverted to an older version to avoid a rare green screen problem.
- Added Intel Sensor Hub drivers for Rev 10 (or later) motherboards.
- Added a check in the OS Patch to ensure the cell modem closes unneeded ports correctly.
